| | APPROVAL OF STATE ENGINEER | | |
| The | This permit to change the point of diversion, place of use of a portion of the waters of an underground source as heretofore granted under Permit 22462, Certificate 8144 is issued subject to the terms and conditions imposed in said Permit 22462, Certificate 8144 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. No perforations shall be put in the production casing from ground level to 100 feet. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. This permit is limited to the irrigation of 1 acre within the place of use. amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to | | |
